Empower

empower micro-entrepreneurs by leveraging advanced credit scoring analytics, incorporating agricultural metrics and weather patterns, to accurately assess creditworthiness.

Enhance

enhance financial accessibility by implementing real-time transaction monitoring for transparency between lenders and borrowers, along with automated repayment reminders to minimize the risk of missed payments.

Elevate

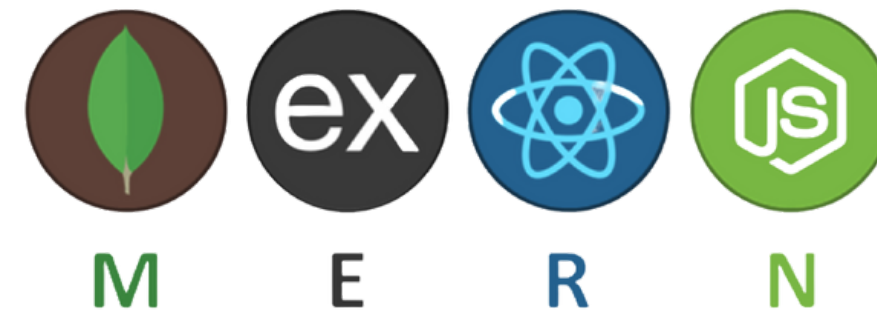

elevate risk management and insights by creating a comprehensive dashboard for lending institutes to assess and manage risks associated with different agricultural ventures.

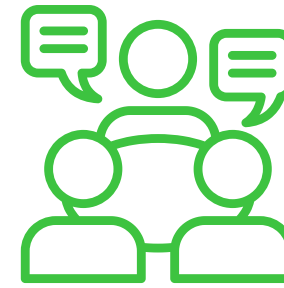

Our Three E's

BERT

Tech Stack

Future Scope

Multilinguality
